

## **Report on 11-08-2026 on TASK(Telangana Academy of Skill & Knowledge)-Student Orientation Programme.**

Orientation Session as a Part of Campus Recruitment and Training in Collaboration with TASK

Hyderabad, 11th August 2026, 12:00 PM–3:00 PM

Venue: Prof. Pramada Devi Seminar Hall, Veeranari Chakali Ilamma Women's University

The Human Capital Development Centre (HCDC) of Veeranari Chakali Ilamma Women's University organized a Student Orientation Program as a part of the Campus Recruitment and Training programme in collaboration with TASK (Telangana Academy for Skill and Knowledge), Department of ITE&C, Government of Telangana, for undergraduate students including B.A., B.Com., B.Sc., Physical Sciences and Life Sciences. The programme aimed to bridge the gap between academia and industry and provide students with better career opportunities.

The event commenced with a warm welcome to the Chief Guest, Mr. Devender Naik Bhukya, District Manager–TASK, Hyderabad, followed by an address by Dr. Loka Pavani, Principal, and an introductory briefing by Dr. Madhuri Thakur, Director, HCDC.

Mr. Devender Naik Bhukya introduced students to TASK and highlighted its major focus areas, including Education, Employability and Entrepreneurship. He explained the importance of filling skill gaps among students and developing the skills required by the present job market.

The speaker explained the process of registration and enrolment in TASK and encouraged students to register and make use of the various skill-development and training programmes offered. He also highlighted the availability of job opportunities in both government and private sectors and explained how TASK acts as an important interface between students and the government and private sectors.

The session also focused on skill offerings for both engineering and non-engineering students, training and placement opportunities, corporate partnerships, and improving employability through industry collaboration. The importance of Artificial Intelligence (AI) in the modern job market was also discussed, with students being encouraged to develop AI-related awareness and skills to remain prepared for future career opportunities.

The session further emphasized training and mentoring programmes for competitive examinations, including opportunities in the banking sector, state government services and other employment sectors.

Around 240 students from different faculties actively participated in the orientation programme and availed themselves of the opportunity to learn about TASK and its skill-enhancement initiatives.

The ultimate goal of HCDC, VCIWU, in conducting such awareness programmes is to equip students with relevant skills, improve their employability, connect them with industry, and guide them towards better career opportunities.
